

All Things Aviation

Wednesday 29th January | 4:30-6:00pm

Supported by @DfT and @CAA as part of 'Reach for the Skies', AeroDiscover is on a mission to inspire the youth of Lincolnshire and Nottinghamshire by showcasing the exciting possibilities in the aviation industry.

We're here to break down barriers and shatter stereotypes, helping young people – especially girls and underrepresented groups – see aviation and aerospace as a real option for their future careers.

We're thrilled to partner with AeroDiscover for this special event, where primary school students and their families are invited to explore ASI's incredible facility. Together, we'll show what a future in air or space could look like, helping kids dream big and aim high from an early age.

Event Highlights:

- **Interactive Activities:** Children will engage in hands-on activities rooted in STEM, fostering critical thinking and creativity.
- **Campus Tour:** Explore our state-of-the-art facilities and discover the innovative programs we offer.
- **Inspiring Environment:** Encourage your children to dream big and consider future careers in aviation and related fields.

The event is at the ASI in Newark, Great N Rd, Newark NG24 1BL.

Free transport will be provided. Pickups & Drop-offs at Coop Heapham Road, Opposite Lea Road Train Station. Timings will be advised when your booking is confirmed .

Places are limited so early booking is advised.
Places will be confirmed by 15 January 2025.
